A green theme!

This is a very special year for Donamon Family Day as this is the first event in the county to be 'Greened' as part of a new initiative by Roscommon County Council whereby specially designed bins are provided to festival and event organisers to facilitate attendees to separate food waste and recyclable items from normal landfill waste.

To further reduce waste, all hot drinks and sandwiches will be served in compostable packaging which can be put in the compost bins on-site along with any food waste from the event. There will also be a team of 'Green your Festival' volunteers from Creggs and Castlecoote Tidy Towns to help to green this event. The project was initiated by

Roscommon County Council after consulting with the Donamon Family Day committee who are dab-hands at waste prevention and cutbacks in waste generated at the event over the last few years. This project is funded by the Environmental Protection Agency (EPA) as part of the **local authority prevention network**.
